

# Morocco - Erasmus networking day Higher Education & VET

Thursday 11 November 2021

on line in [AIRMEET platform](#)

Are you prepared for the next Erasmus call 2021-2027?

Are you looking for a platform to exchange with new partners?

Are you interested in working with **Moroccan** higher education institutions & VET providers?

This is for you!

Morocco is among the "most active" countries in terms of participation in cooperation programs with the European Union (EU), especially in higher education and research innovation. In the European Neighborhood Policy, Morocco has made great strides in its policy and multilateral cooperation with the EU, this has allowed Morocco to be the first partner of the Erasmus+ program at the **African level** and the second in **the southern Mediterranean region**.

During the period 2004-2020, Morocco participated in 144 including 107 Tempus Projects and 37 Erasmus+ capacity-building projects. In addition, 7434 "Erasmus+" mobility of students and staff have been approved between Morocco and the EU, representing approximately 26 million euros, and 3960 mobility have been realized, including 2,809 outbound (to Europe) and 1151 inbound (European) mobility to Morocco.

These mobility exchanges concern 50 Moroccan higher education institutions and universities with **190 European institutions**, 71% of these mobilities are carried out by Moroccan public universities. This has made a [positive impact](#) on the higher education system.

The next Erasmus+ program covering the period between 2021 and 2027 is promising, hence, we need to be prepared to take great profit from its dynamic.

**The networking Day is a unique opportunity to connect European higher education institutions with Moroccan Institutions to consolidate and develop new quality partnerships under the Erasmus+.**

## Objectives:

The **Erasmus Networking Day 2021** will provide a platform for European Higher Education Institutions to meet virtually Moroccan HEIs, universities, and VET providers who are interested in collaborating with their European counterparts via the Erasmus+ program.

Higher Education Institutions and VET providers will have the possibility to interact virtually with their Moroccan counterparts in real time, hence build up new paths for collaborations in the different actions: CBHE, ICM, Jean Monnet, and EMJM. European participants, through this event, will :

- Visit Moroccan HEIs and VET providers' virtual exhibition booths
- Have "Speed networking"
- Share, download information materials, ask questions via direct chat with participants and the exhibitors
